Exhibit 18, SMOKE FREE MILWAUKEE PROJECT CAMPAIGN (approximately 4000 signatures in support of smoke-free environments).

Wisconsin Ethnic Network Collaborative

SMOKE FREE MILWAUKEE PROJECT CAMPAIGN

Second-hand smoke kills. It causes an estimated 1,200 lung and heart deaths in Wisconsin each year. Regular exposure to second-hand smoke in the home or at work increases the risk of heart disease. In addition, children with asthma exposed to second-hand smoke have more asthma attacks.

The Smoke Free Milwaukee Project Campaign is mobilizing and educating the community in an effort to increase support for smoke-free environments. By providing the information below, you are agreeing to support local efforts to make all work places in the City of Milwaukee smoke-free.

☑ YES! I SUPPORT A SMOKE FREE ORDINANCE.

☐ YES! I'D LIKE TO VOLUNTEER MY TIME TO HELP WITH THIS EFFORT.
